Re: Code application

Dear Remi,

Minnesota Rule 1300.0130, subpart 7 states, "Previous approvals. The code in effect at the time of application shall be applicable"

This means that if you submit a complete application for a permit before the new code is effective, then the current code will apply to work covered by the permit.

Further, Minnesota rule 1300.0030, subpart 2. C. states, "In the event that a new edition of the code is adopted after a permit has been issued, the edition of the code current at the time of permit application shall remain in effect throughout the work authorized by the permit."

I hope that this helps to clarify,

A handwritten signature in black ink, appearing to read "Stephen P. Hernick". The signature is fluid and cursive.
